

West Marine[®]

We make boating more fun![®]

Fly in and sail away with Seawind's new boating accessory offerings. With our comprehensive options packages and newly established accessories supply, moving into your new Seawind has never been easier!

Our new Accessories program will enable all new boat owners with boats currently in production the ability to order a stock of spare parts, wet weather gear, recreational equipment and other boating accessories ready for you to jump onboard and sail away.

To order simply jump on www.westmarine.com and build up a shopping cart of equipment you wish to have onboard your boat. Once your list is full print the page to PDF (for help doing this, visit: help.adobe.com)

This list should be saved with the name 'Your Shopping Cart_Westmarine' and then your boats SC Number, eg. 'Your Shopping Cart_Westmarine_SC441', (see example on following page) and then emailed to customerservice@seawindcats.com.

The equipment will then be ordered and delivered to your boat ready for you when you jump onboard.

Notes:

- *Orders will be added to the final contract variation and charged at online listed price*
- *Freight will not be charged on regular orders (large items will be handled on a case by case basis)*
- *This service covers supply and delivery only, equipment ordered through this service will not be unboxed or installed.*
